

MICHAEL ADEMEJI

Alakuko, Lagos | +234-915-162-0684 | ademejimichael34@gmail.com | GitHub

OBJECTIVE

Innovative Software Engineer with a strong foundation in programming, analytical problem-solving and a passion for creating cutting-edge technological solutions. Driven by a desire to learn and adapt, I thrive in collaborative team environments where I can continuously enhance my technical expertise and make a meaningful impact on projects that push the boundaries of technology.

SKILLS

Laravel(beginner), React, HTML, CSS, Bootstrap, JavaScript, jQuery, VueJs(beginner), Cordova, Python, Flask(beginner), Redux, NodeJS, Agile methodology, Jira, Node.js, Microsoft teams, Slack, Notion.

WORK EXPERIENCE

Google Developer Student Club, FUNAAB | Student Mentor-Backend Dev. Mar 2024 - Nov 2024

- Served as Backend Co-Lead for the Google Developer Student Club at FUNAAB, guiding and mentoring new members to enhance their technical skills, develop confidence in coding and debugging and foster growth within the community.
- Designed and facilitated onboarding sessions for new members, introducing them to foundational backend development concepts and tools.
- Taught members how to use Git and GitHub for version control and collaboration in team projects.
- Fostered an inclusive and supportive environment that encouraged members to learn, experiment, and contribute to open-source projects.

Afrimages, Remote | Software Developer Intern Apr 2023 - May 2024

- Collaborated with the engineering team to design, develop, and maintain backend systems, ensuring efficient, scalable, and high-performing solutions that meet user needs.
- Gained hands-on experience with version control systems like GitHub, streamlining team collaboration, code management, and deployment processes.
- Played an active role in identifying and resolving bugs, conducting thorough testing, and ensuring a stable codebase in production environments.
- Contributed to sprint planning, task prioritization, and iterative development cycles within an Agile/Scrum framework, improving team productivity and project delivery timelines.

Tigers Consultancy | Software Developer - Backend Apr 2023 – May 2023

- Collaborated with the engineering team as the backend developer to design and implement the company's first fully responsive website, ensuring optimal performance and user experience.
- Worked closely with frontend developers to ensure backend functionality supported a responsive and visually appealing design.

Bincom Academy | Software Developer Intern – Mobile Applications Feb 2022– Oct 2022

- Accepted into Bincom Academy's internship program as a Mobile Application Developer, gaining valuable hands-on experience in building and maintaining cross-platform applications.
- Learned and worked with Cordova, building mobile applications that run seamlessly on multiple platforms, ensuring functionality and consistency across devices.
- Acquired practical experience in using App.js as a framework for designing and developing user-friendly and interactive frontend applications, focusing on responsive design and performance.

EDUCATION

Bachelor of Science in Physics | Federal University of Agriculture, Abeokuta

Aug 2024
